SKILLS

- ❖ Programming Languages: Python, Dart, Java, C
- ❖ Mobile Development: Flutter, Responsive UI Design, Firebase
- ❖ Web Technologies: HTML, CSS, JavaScript
- ❖ Tools & Platforms: Git, GitHub, VS Code, Firebase Hosting, Microsoft Office
- ❖ Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Fundamentals

EDUCATION

- ❖ B.Tech in Computer Science & Engineering | St. Thomas College of Engineering & Technology, Kannur, Kerala.
Expected Graduation: 2028
- ❖ Higher Secondary Education (XII) | St. Michaels AIHSS Kannur, Kerala.

EXPERIENCE

- ❖ **Flutter Development Intern | Neovent Solutions** *(June 2025 – July 2025)*

Worked on developing responsive mobile application interfaces using Flutter and Dart. Built user interface components using widgets, implemented form validation, and gained practical experience with object-oriented programming concepts. Developed mini-projects and learned industry-standard mobile application development practices.

- ❖ **Python Programming Intern | Metaloop Global IT Services** *(may 2025-june2025)*

Participated in an internship program on Advanced Programming in Python developing proficiency in Python programming, object-oriented concepts, and problem-solving methodologies. Worked on practical programming exercises and strengthened understanding of software development fundamentals.

ACADEMIC PROJECTS

❖ Instagram UI Clone

Created a Flutter-based Instagram home page clone featuring post cards, profile sections, and navigation components. The project emphasized widget composition, responsive design principles, and user interface development using Flutter.

Technologies: Flutter, Dart

❖ Login Form with Validation

Built a Flutter login interface with input validation and interactive user feedback mechanisms. Implemented multiple button styles and form handling techniques while applying object-oriented programming concepts throughout the development process.

Technologies: Flutter, Dart

❖ Portfolio Website

Developed and deployed a responsive personal portfolio website showcasing projects, skills, certifications, and technical experience. Implemented modern web design principles and optimized layouts for multiple screen sizes using Firebase Hosting.

Technologies: HTML, CSS, JavaScript, Firebase Hosting

POSITION OF RESPONSIBILITY

❖ Design Lead | Geekzone computer science department

Leading the design team for technical and departmental events, creating promotional materials, social media creatives, and event branding. Collaborating with club members to ensure consistent visual communication and engagement across various activities.

❖ Design Lead | ISTE Students' Chapter

Managing design-related activities for workshops, seminars, and technical events organized by the chapter. Developing posters, banners, and digital content to support event outreach and student participation.

ACHIEVEMENTS / HOBBIES

- ❖ Successfully completed a Flutter Development Internship.
- ❖ Developed and deployed a personal portfolio website using Firebase Hosting.
- ❖ Serving as Design Lead for both GeeksOn and the ISTE Students' Chapter.
- ❖ Maintaining technical projects and version control using Git and GitHub
